### ***CLINICAL SUPERVISOR'S ACCREDITATION COURSE 2012***

*For all practitioners who may be supervising Funeral Directing or Embalming students over the next three years*

#### **IMPORTANT MESSAGE TO ALL FUNERAL DIRECTING COMPANIES:**

Once again FSTT and WelTec are very pleased to be running training courses for those who are involved with supervising any students who are undertaking either the Funeral Directing or Embalming courses at the Wellington Institute of Technology (WelTec).

Anyone undertaking the responsibilities of supervising and assessing students needs to have completed training and gained approval for this.

The aim of the accreditation course is to give as much assistance as possible to supervisors, so they may feel confident in understanding the requirements, the standards expected, and the methods of assessment to be undertaken.

Please give these courses careful consideration – it is essential to attend for those supervising students this year, and if there is likelihood of supervising students attending WelTec in the next year or two also, it is wise to attend now, as the courses do not always run in all main centres every year.
